

HotSchedules Enterprise is the premier web-based restaurant staff scheduling and comprehensive labor management solution designed to support multi-unit restaurant chains with on-demand tools and POS integration, and trusted by many of the largest and most respected restaurant chains in the nation.

“We heard the industry buzz on HotSchedules and we knew right away this was the type of labor scheduling solution we were looking for. Within weeks of launching HotSchedules, we've reduced labor by 1/2 percent. Furthermore, HotSchedules has provided the means of communication to build on community and culture in our restaurants.”

Robert Werk, COO,
Gordon Biersch Brewery Restaurant Group
